Waseem Virk, Flutter Dev at Emvi.ai
"Working alongside Baptiste Grosjean on the EMVI project has been an incredibly rewarding experience—both professionally and personally. Not only is Baptiste a highly skilled developer with a sharp eye for design and functionality, but he's also been a mentor and an inspiration throughout our collaboration. I've learned so much from him—from best practices in Flutter development to the importance of thoughtful UI/UX and clean architecture. He's always willing to share his knowledge, explain complex ideas with clarity, and support the team in any way he can. What stands out the most is Baptiste's ability to turn challenges into opportunities. His calm, focused approach and problem-solving mindset helped us overcome technical hurdles and build features that truly improve user experience. On top of that, his collaborative nature made working as a team feel seamless and motivating. If you're looking for someone who not only delivers exceptional results but also uplifts everyone around him, I can't recommend Baptiste enough. He's a fantastic developer, a great teammate, and someone I've been lucky to learn from."

Tino Schuerewegen, Software developer at Xtrada
"I had the pleasure of working with Baptiste for a year, with the added joy of mentoring him on a project for three months. If there's one thing that stands out about Baptiste, it's his boundless energy. Whether it's 9 AM or 9 PM, he's always the most enthusiastic person in the room—sometimes even more enthusiastic than the coffee machine. Baptiste brings a contagious energy to any project he's part of. He's outgoing, smart, and has an eagerness to learn that is truly admirable. Whether he's diving into a complex task or asking insightful questions, he's always in search of knowledge. His enthusiasm for learning, especially when it comes to leveraging tools like ChatGPT, is both impressive and a little intimidating. Seriously, if ChatGPT had a best friend, it would be Baptiste! He's also incredibly hands-on, never shying away from rolling up his sleeves and getting deep into the work. His approach isn't just theoretical; he's all about practical, tangible results. In summary, if you're looking for someone who brings enthusiasm, intelligence, and a touch of humor to every task, Baptiste is your person. Working with him was not just productive, but genuinely enjoyable."

Steven Claus, CFO at Xtra Groep
"Baptiste is a full-stack software developer and is driven by an unwavering determination. This mindset permeates every aspect of his career. He has worked in various fields, allowing him to quickly adapt to any situation. These roles have honed both his technical and interpersonal skills, making him a versatile collaborator who significantly impacts every project he joins. Fueled by a constant desire to learn, he continually updates his knowledge through a master's degree in computer science. This ongoing learning journey makes him a well-rounded IT professional in the field of computer science."

Michael Culot, Sales manager at Xtrada
"Baptiste is a great and devoted developer who's eager to keep learning new technologies and elevate his skill set. You would be amazed about not only his knowledge but also his warm open enthusiasm. Baptiste, you're going to be doing great things in your life, just keep your vibrate spirit !"
