EDUCATION

Master of Science - MSc in Computer Science (work-study program) — specialised professional focus (120 ECTS)

LANGUAGES

French — Native Speaker
English — B1+/B2 (TOEIC 730/ ELAO)
Dutch — B1

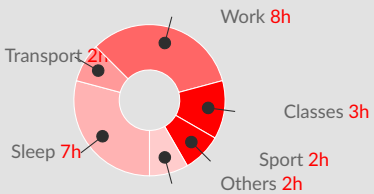

TECHNICAL SKILLS

SQL C# Java Python JS TS XML JSON
HTML CSS Zsh Dart Rust LaTeX SQL Server
EF .NET Pandas NumPy Whisper SpaCy
PyTorch Transformers HuggingFace SentenceTransformers
LLMs RAG LangChain OpenAI Claude Embeddings
ColBERT Reranking FAISS OpenSearch RAGAS
PromptEngineering OCR Docling VLM Node.js
Express.js Blazor Angular React Flutter Tokio
Axum Tower Gradle NPM JWT Auth0
SSH Venv Conda Docker UML Merise
VisualParadigm MiniZinc ConstraintProgramming
CombinatorialOptimization Pareto Lark DSL
Hypothesis CleanCode CleanArchitecture DDD
CQRS

SOFT SKILLS

Adaptability Resilience Leadership Creativity
Initiative Analysis Flexibility Teamwork Organization
Pragmatism Resourcefulness Thoroughness

TYPICAL DAY

ABOUT ME

Computer scientist — MSc from UMons — building Acteble.
Working at the crossroads of AI-era software engineering — Claude Code workflows, autonomous agents, RAG pipelines, mobile development — anchored by Software Craftsmanship: clean code, clean architecture, hexagonal architecture, DDD, TDD.

EXPERIENCE

Founder — Acteble
Jul 2025 – present Brussels, Belgium

- Sole founder, architect and developer. Rust backend + Flutter mobile. The R&D layer also served as the dissertation for my MSc in Computer Science at UMons.

Projects:
- **Acteble API** — Backend of the platform: a modular monolith in Rust, split into bounded…
- **Acteble App** — Offline-first client for iOS, Android, web and desktop: a Melos monorepo of…
- **Acteble Website** — Public website of Acteble: a lightweight React single-page application built…
- **Mémoire de master** — MSc dissertation: « Un cadre computationnel multicritère pour l'exploration de…

AI Research Scientist — Belgian Senate
Nov 2025 – Jun 2026 Brussels, Belgium

- AI research and engineering for the Belgian Federal Parliament. Designed an internal platform that lets staff search, explore and converse with the parliamentary archives. Authored an open evaluation protocol that…

Projects:
- **Synergy** — Internal platform that lets parliamentary staff search, explore and converse…
- **fedrag-be** — Open, reproducible protocol that benchmarks retrieval strategies on the…

AI Software Crafter Lead — Emvi.ai
Dec 2024 – Jun 2025 Brugge, Belgium

- Led the crafting from technical design through delivery: OCR pipeline, code scanning, and a Valhalla routing system adapted for the visually impaired.

Projects:
- **Emvi App** — AI powered visual assistant for visually impaired people providing them with a…

AI Software Crafter
Oct 2024 – Jun 2025

- Built the facial recognition pipeline (DeepFace / Serengil — detection + recognition) and the sentiment-analysis stack for the LLM-generated photo descriptions.

Projects:
- **Remi** — Reminiscence application allowing people with cognitive issues to recover…

Data Scientist — Xtrada
Mar 2024 – Sep 2024 Antwerp, Flanders, Belgium

- Used Python libraries (SpaCy, ...) to extract named entities from text via NER model training and implementation in .NET. Model recall score: 87%.

Projects:
- **VhAuctions NER Inventory Model** — Named Entity Recognition machine learning model to extract inventory items…

Software Crafter
Aug 2023 – Sep 2024

- Software modernization within the .NET stack following domain-driven design and clean code principles. Implementation of Azure AI services in a .NET solution.

.NET/React Software Crafter • VhAuctions
Jan 2024 – Aug 2024

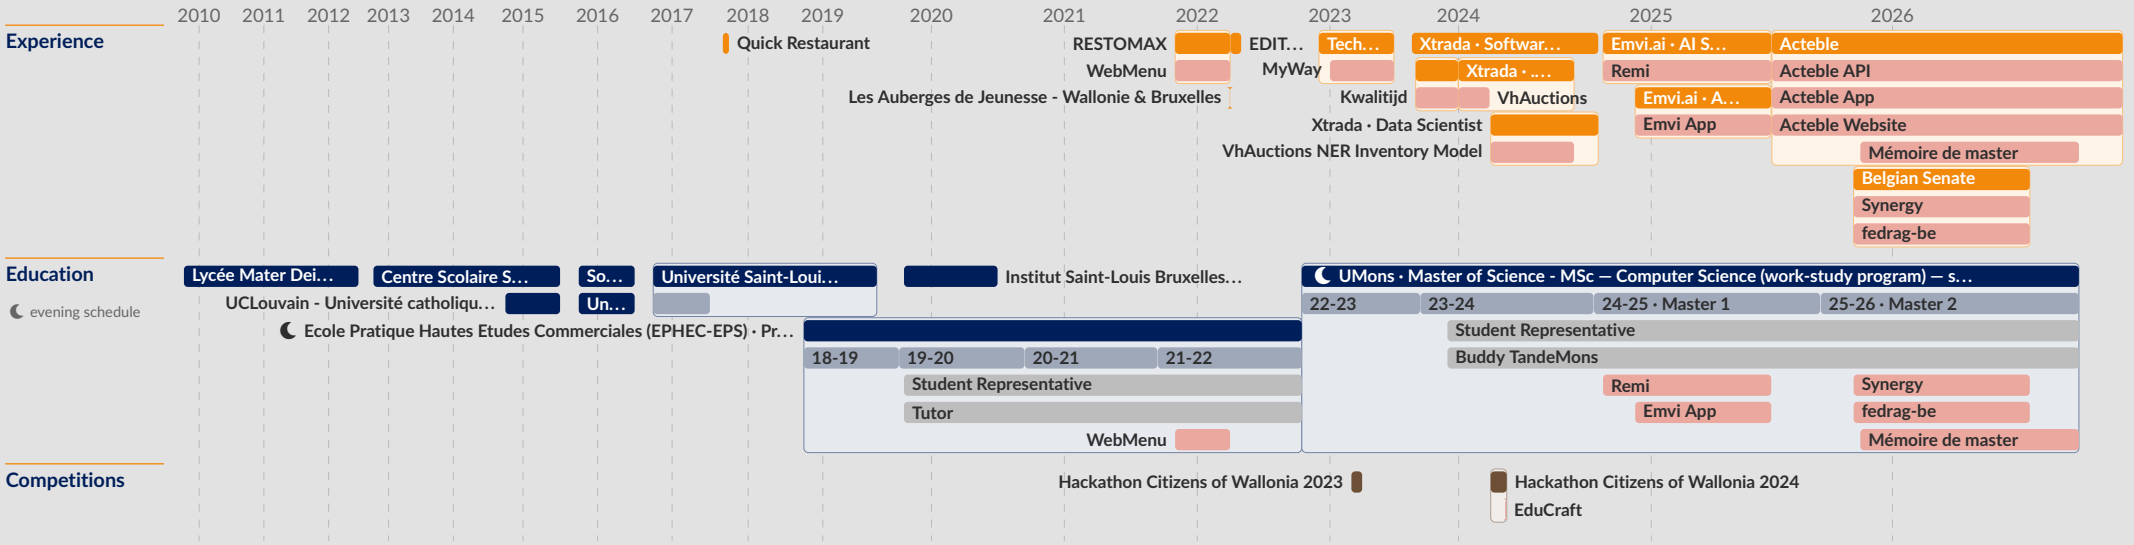

Projects:
- **VhAuctions** — Fleet manager for auctions.

.NET/Blazor Software Crafter • aXinco
Sep 2023 – Dec 2023

- Crafted the webapp in .NET / Blazor following DDD and clean code principles.

Projects:
- **Kwalitijd** — Survey manager for sports clubs and federations.

TIMELINE

REFERENCES

Waseem Virk, Flutter Dev Emvi.ai

Working alongside Baptiste Grosjean on the EMVI project has been an incredibly rewarding experience—both professionally and personally. Not only is Baptiste a highly skilled developer with a sharp eye for design and functionality, but he's also been a mentor and an inspiration throughout our collaboration.

I've learned so much from him—from best practices in Flutter development to the importance of thoughtful UI/UX and clean architecture. He's always willing to share his knowledge, explain complex ideas with clarity, and support the team in any way he can.

What stands out the most is Baptiste's ability to turn challenges into opportunities. His calm, focused approach and problem-solving mindset helped us overcome technical hurdles and build features that truly improve user experience. On top of that, his collaborative nature made working as a team feel seamless and motivating.

If you're looking for someone who not only delivers exceptional results but also uplifts everyone around him, I can't recommend Baptiste enough. He's a fantastic developer, a great teammate, and someone I've been lucky to learn from.

Tino Schuerewegen, Software developer at Xtrada

I had the pleasure of working with Baptiste for a year, with the added joy of mentoring him on a project for three months. If there's one thing that stands out about Baptiste, it's his boundless energy. Whether it's 9 AM or 9 PM, he's always the most enthusiastic person in the room—sometimes even more enthusiastic than the coffee machine.

Baptiste brings a contagious energy to any project he's part of. He's outgoing, smart, and has an eagerness to learn that is truly admirable. Whether he's diving into a complex task or asking insightful questions, he's always in search of knowledge. His enthusiasm for learning, especially when it comes to leveraging tools like ChatGPT, is both impressive and a little intimidating. Seriously, if ChatGPT had a best friend, it would be Baptiste!

He's also incredibly hands-on, never shying away from rolling up his sleeves and getting deep into the work. His approach isn't just theoretical; he's all about practical, tangible results.

In summary, if you're looking for someone who brings enthusiasm, intelligence, and a touch of humor to every task, Baptiste is your person. Working with him was not just productive, but genuinely enjoyable.

Emiel Van Gysegem, Marketing and operations at Xtra Groep

Hoewel we niet direct samenwerkten, had ik altijd een heel fijne connectie met Baptiste. In een mengelmoes van Engels, Nederlands en Frans deelden we vaak leuke gesprekken. Zijn enthousiasme en energie zijn echt aanstekelijk, en hij weet een prettige, informele sfeer te creëren in elke interactie. Baptiste is iemand die een positieve dynamiek met zich meebrengt.

Steven Claus, CFO at Xtra Groep

Baptiste is a full-stack software developer and is driven by an unwavering determination. This mindset permeates every aspect of his career. He has worked in various fields, allowing him to quickly adapt to any situation. These roles have honed both his technical and interpersonal skills, making him a versatile collaborator who significantly impacts every project he joins. Fueled by a constant desire to learn, he continually updates his knowledge through a master's degree in computer science. This ongoing learning journey makes him a well-rounded IT professional in the field of computer science.

Tjörven Janssens, software developer at Xtrada

Baptiste is naast een software ontwikkelaar, graag bezig met data-analyse en is een expert in het gebruik van ChatGPT. Hij leert graag nieuwe dingen en doet dit ook snel. Hij is erg enthousiast in omgang en staat steeds klaar voor een vriendelijk woord of wat advies.

Michael Culot, Sales manager at Xtrada

Baptiste is a great and devoted developer who's eager to keep learning new technologies and elevate his skill set. You would be amazed about not only his knowledge but also his warm open enthusiasm. Baptiste, you're going to be doing great things in your life, just keep your vibrant spirit
